

Technology Industry Risk Management

Your business makes things easier... We make it easier for you

Companies in the technology industry have very unique exposures. Is your current broker or agent focused on your industry?

ONEGROUP Bailey & Haskell Insurance has the industry specific experience, knowledge and innovative solutions to help reduce and mitigate the risk of financial loss. A Bailey & Haskell advisor can offer you a no-cost analysis, followed by a specifically tailored technology risk management plan with programs, techniques and coverages designed for your unique exposures. A traditional insurance program focuses on paying for loss; implementing a comprehensive and competitive risk management program provides you with tools to manage risk along with the protection to minimize costs.

Some of the areas addressed in the assessment and plan:

- Insurance coverage
- Workers' comp experience modification rating
- Full circle disaster planning
- Site safety plans
- Proper classification of your operations
- Workers' compensation premium recovery
- Safety training
- Contractual risk transfer
- Financial injury assessments
- Pollution / environmental issues
- Claim management and reviews
- OSHA
- Return to work for injured employees
- Technology related injuries
- Risk financing alternatives – i.e. captives & 831Bs
- New York labor laws

To learn more about the Technology Industry Insurance Program offered through ONEGROUP Bailey & Haskell Insurance contact Bill Neely by phone at 315-413-4423 or by email at bneely@bhinsurance.com.
